Needs

Air bag inflator driver side. Factory recall, case opened with All White motors Manchester. Waiting on part to arrive. Eli the Shop manager has assured me that, once vehicle is sold, he will transfer the case in to your name and you will be contacted for the fix. That fix will take less then a half hour of your time.

A/C does blow cold, however it will not keep up in extremely hot weather. I over charged it. I have already been in contact with J and W auto repair highway 41 Manchester. Unfortunately he is backed up for weeks. When I charged the system I used Freon with bright green dye in it to in sure there where no system leaks. The

compressor is not and off. I do not have the machine to do a vacuum and I have the gauge set to make a out system. I charged it and it could be for his price, if he has one car, the charge would be \$81 plus tax
